

## Curriculum vitae

Ulrich Georg Randoll is born 1955 in Bad Säckingen, Germany

After school he became dental technician with special interest for Articulation of mandibular joint and Gnathology.

His military service he passed at the military academy for health of the air-force in Munich

1981 he started at the Johann-Wolfgang-Goethe-University in Frankfurt/Main with general medicine and in 1985 additional with dental medicine.

Trainees he did beside others in the dep. of surgery at Prof Vogt, Lucerne Switzerland

After having finished his studies he started as Medical doctor at the University of Erlangen/Nuremberg.

From 1989 – 1995 in the Dep. of Maxillofacial surgery (Prof. Dr.Dr.E.Steinhäuser) and from 1997 in the Dept of traumatology (Prof. Dr. F.F. Hennig

Clinical observations on patients problems turned him on bio-physical basic research.

Dr. Randoll's studies in the field of bio-physical research - most notably on the function and interaction of cells and the intercellular matrix - gave rise to his principal of "biological cell quality management", which is the basis of the techniques used in the **Matrix Center-Concept**. [www.matrix-center.de](http://www.matrix-center.de)

Since 1998 he is in privat office (Matrix-Center Munich

Since 1999 External Expert TÜV Product-Service Munich; EN-ISO 9001, 9002, 9003 medical, health and sports;

Since 2004 Auditor EN-ISO 9000 at TUEV-CERT for health-Systems.

### Scholarships

- |            |   |
|------------|---|
| 1989       | Scholarship der Price Pottenger Nutrition Foundation/San Diego CA, USA  |
| 01.03.1991 | 500.000 DEM Scholarship for five years for the project: „Clinical associated basic research in the field of pain and tumorthrapy“ by the Rut- and Klaus Bahlsen-Foundation, Hannover; Stifterverband für die Deutsche Wissenschaft, Essen   |
| 1992-1994  | Planing and supervising of a „Multicenter Phase II Study“ titled: Examinations on cellbiologic interactions for the clinical use of ac-fields for the treatment of carcinomas<br>In coordination with: Prof. Dr. H. Dertinger, Kernforschungszentrum Karlsruhe<br>Financed by: Manfred und Ursula Müller Stiftung, im Stifterverband für die Deutsche Wissenschaft, Essen (DEM 800.000) |

### Awards

- |            |   |
|------------|---|
| 01.08.1995 | Innovation-Award 1995 of the center of technology for Computer simulation of the FHTE, Esslingen.                       |
| 31.05.1996 | „Matrix-Award 1996“ on the occation of the 3rd International Congresses of the Matrix Society in Alexandroupolis, Greek |

### Cooperation for reseach

University of Erlangen Nuremberg Dep. of Traumatology

University of Freiburg Dep. of Biology

Univ. of Dresden, Anatomy

etc.

Dr. Randoll is the author/co-author of nine books and has been published in over 30 national and international specialist publications. In addition, Dr. Randoll is a frequent guest-speaker at scientific meetings in Germany and abroad.
